1. [ ] Comment. Compare with similar observations [ ] on 16 July. [ ] The units of the 18th (?) Engr Bn of the 1st Mecz Div entrained on 7 July apparently had returned from Jerichow by 23 July.
2. [ ] Comment. [ ] the loadings involved units of the 1st Mecz Div which probably continued their firing practices in Jueterbog. The entrained units included units of the 41st RL Bn (US) of the division and thus confirm the battalion in Doeberitz until 24 July.
3. [ ] Comment. [ ] the troops detrained on 23 July are believed to be artillery units of the Fourth Gds Mecz Army, which possibly returned from Altengrabow where, according to reports on transportation, two trains from Templin had gone on 10 and 11 July. On the other hand, it is not impossible that the detrained troops were units of the 6th Gds Mecz Div, which may have come from the Eberswalde and Bernau posts. Information in paragraph 7 of the present report, however, supports the first mentioned version. [ ] Comment 7. The materiel which, according to information in paragraph 11, was observed on the same day, allegedly ready for entraining, belonged to the same division [ ] [ ] These elements possibly had also been detrained or else had later been entrained for Altengrabow.
4. [ ] Comment. Construction work, allegedly on a camp, had been under way in the Neukloster-Klein Warin area. [ ] nine storage brick buildings were scheduled to be completed by mid-August and that construction work would be performed exclusively by Soviet troops.
5. [ ] Comment. Possibly a shipment of artillery units of the Fourth Gds Mecz Army, which transferred to Templin. [ ] [ ] unloading in Templin of a train which, however, had a different load. [ ]
6. [ ] Comment. Units of the Fourth Gds Mecz Army presumably held exercises at the training area between 18 and 22 July, so that, during this period, the camps appeared to be vacant. [ ] [ ] [ ] The evacuation of Camp Kannenburg appears credible, as the units of the 6th Gds Mecz Div carried there were believed

to have been at their posts on 10 July, and equipment of the division has continually been shipped away from Hammelspring. [REDACTED]

25X1 7. [REDACTED] Comment. Although the SS Briefstaubenstation in Bernau had allegedly been vacated on 5 July and the units of the 120th (?) AAA Regt of the 6th Gds Mecz Div, therefore, had possibly left, it is probable that the units entrained on 21 July belonged to this regiment. According to reports on transportation, the shipment went to Justerbog. [REDACTED]  
[REDACTED] The train on 15 July probably carried units of the 12th Gds Tank Div from the Berlin area to Neuruppin.

25X1 8. [REDACTED] Comment. [REDACTED] the office of the commander of the artillery with the headquarters of the COFG.

25X1 9. [REDACTED] Comment. [REDACTED] Third Shock Army, presumably the 94th Gds Mtz Rifle Div. Guns of the caliber mentioned, presumably howitzers, have not been observed in the Fritsch Kaserne so far.

25X1 10. [REDACTED] Comment. The trucks of the tank detail [REDACTED] arrived at the Wittstock troop training grounds [REDACTED]

25X1 11. [REDACTED] Comment. The shipment presumably came from the Altengrabow troop training grounds.

25X1 12. [REDACTED] Comment. The information that the Panzer Kaserne was occupied to capacity tends to indicate that the units of the 88th Engr Regt (?) of the Second Gds Mecz Army which, in early July, had left for exercises in the Jerichow area, had returned by 17 July. [REDACTED]
